

## Resichem 512 UCEN 90

Resichem 512 UCEN 90 is a high build solvent free epoxy novalac coating designed for immersion conditions in aggressive industrial chemicals at elevated temperatures.

The two component product is highly resistant to 98% sulphuric acid at 75°C, 75% Sulphuric Acid at 90°C, 36% Hydrochloric Acid at 50°C,

### Features of the product include –

- Solvent free
- Excellent chemical resistance at elevated temperatures
- Seamless lining

### Benefits to the user include –

- Long term protection of key assets
- Applied in situ
- Reduced downtime of production areas
- Reduced life cycle costs

### Typical Applications include –

- Pipelines, tanks, chemical containment and bund areas, screw pumps, structural steel and concrete, process vessels and equipment.
